

End of Summer retreat

*Thank you for your interest in the "silence and contact
retreat*

We kindly ask you to read the whole document carefully before
proceeding with the registration

Silence

The principal and constitutive element of the retreat, silence opens our sensitivity and listening, essential elements of *contact improvisation*: for this reason in the area of the platform we will try to maintain it constantly.

In the rest of the retreat area it will be possible to speak from the end of the morning silence circle to the beginning of the evening silence circle.

At night we will donate the entire retreat area to silence, dance, and listening.

Nature

Not far from the city of Massa, in Tuscany, in a beautiful mountain chestnut grove. On one side overlooking the sea and the other side the peaks of the Apuan Alps. Searching for naturalness, natural biorhythms, the breath of the sea and the mountains, the spring water that flows inside the body, the sound of burning wood, the music of insects, rain and sun, healthy food, sleeping in contact with the earth, the search for simplicity.

The *Jam* Contact *Improvisation*

The principal practice of the retreat, the *Jam* is designed for people with previous experience in contact improvisation in which to explore, as well as the relational, technical, and dynamic movements that characterize the CI, even the meditative, spiritual, emotional and the inner search of the practice, the search for the essence of contact.

There are two Jams per day:

Silent Jam

Starts after the morning circle of silence and doesn't include music or singing.

Jam

Starts after the evening circle of silence.

Who has the desire to play an instrument or to make sounds with his own body is free to do so, while keeping the space free from verbal expressions

Meditation

The retreat is conceived as a meditative / contemplative space.

We will meditate together for about 45 minutes. In the morning before breakfast and in circles of silence.

Meditation

We will sit in silence with the same orientation, with our eyes closed or open, standing still or moving.

Circle of silence

We will sit in silence in a circle, with our eyes closed or open, our bodies still or in movement.

INDICATIONS FOR THE PRACTICE

- *If sitting in meditation is something completely new do not worry, you can express it in the circle of speech or privately to a focalizer. The first steps will be suggested.*
- *If you are already a practitioner of any spiritual or religious tradition, feel free to meditate as you wish, as long as you maintain the silence.*
- For beginners the initial indication is slow down, stop, sit and listen, then in the talking circle, dance and afternoon experiences conducted by the focusers will inevitably provide the objects on which to stand.
- Meditation is a general disposition of the human being and similarly to dance is a way to inhabit space. Dance with the objects of your consciousness.

The space of the retreat is vast with in a protective context that allows you to easily obtain a spot for your individual practice if you wish.

The Word

During the day and outside the platform area we will be able to talk, joke, share and sing. The true and inner silence that we have created in the night, in meditation, in the circles of silence, and during the silent *Jam* of the morning, will

not abandon us anyway and will enter into a relationship with the word, in its forms and its ways.

In any case, remember to make careful use of the word, considering the high degree of sensitivity, openness and destructuring of the defenses that this intensive practice can create.

The word and listening to it will also be the object of our research in the:

Talking Circle

This structured sharing space was conceived for the importance of making the word an economic and functional use for the retreat.

Participants will have the opportunity to speak to the group and express one by one what they are feeling. Everyone will be able to speak (once in each circle) or if you prefer you can just remain silent and listen.

Circle of poetry

On the last night, around the fire, after the jam, we will transform our silence into poetry.

The Fire

We will light a fire every evening after dinner. The area of fire will be a place of regeneration, sharing and listening. Around the fire it will be possible to sing, dance, play, recite, and read poetry. The days will be intense, so we will not disturb those who are sleeping and those who are still dancing in the space, avoiding being too loud, and using noisy instruments and instead favoring harmonic expressions.

The Silent Walk

Together we will go on a regenerating experience of a *trekking in silence* on one of the beautiful peaks of the Apuan Alps that surround the area, led by a mountain guide.

SOME IMPORTANT INDICATIONS:

- follow the silence for the entire duration of the route,
- follow the mountain guide and all his instructions.
- be equipped with good trekking shoes and windbreaker
- smartphone off, to be turned on only in case of emergency

The workshops

The afternoon workshop will be conducted by one or more focalizer and organized during the retreat in their total freedom and creativity. The experiences

proposed will be the fruit of their collaboration and their particular reading of the group. They will not be classical lessons of contact improvisation, but proposals for listening, exploration, meditations, bodywork or moving practices that may or may not include contact.

The conductor can use the words to give directions.

Participants are asked to maintain silence and avoid entering the workshop after the workshop has commenced.

Focalizer

Focusers are experts with years of practice in meditation, dance and *contact improvisation* that will facilitate the activities, conduct the workshops and will always be present on the platform during jams and meditations.

Helpers

The retreat includes the presence of helpers who will take care of the participants and the space of the retreat, and will support the activity of the focalizer.
